

Market Notice

Number: Y1333 A
Date 02 April 2014

Please note changes to “Loading New Client Code – User Manual”

The User Manual has been amended to include more detail. Every step is documented with definitions of the various applicable Nutron fields. Detailed examples of the required inputs are also included.

Nutron Client Loading – Spot Bonds

The JSE has created functionality on the IRC Nutron frontend that enables members to load their own new local clients. As such members will no longer need to contact the exchange in order to load local clients. The process is user friendly and should only take a few minutes to action.

Please refer to the attached document

- Loading New Client Code – User Manual

The new functionality, whereby members are able to load their own local clients, is already available

The interest rate data team is still available to assist on any queries regarding loading new clients and can be contacted on the following details:
